#SafeChristmas

Take Care Together

What we are doing to look after you:

All of our team are fully trained in Covid-19 prevention measures.

We keep our environment safe and hygienic, and provide hand sanitiser throughout the premises.

All our staff wear face-masks at all times when working indoors.

Always sanitise your hands when entering or leaving the building.

Always wear your face mask indoors and when moving around the building, including going to the bathroom.

One person from your group provides details for contact tracing.
